Subject: MLPAComments: Underwater Park in Monterey

I understand that on Tuesday, March 7, Fish and Game is going to decide on which areas of Monterey Bay to protect as a Marine Reserve and also that there was a last minute change that excluded protection from the Breakwater to Lovers Point. The fish populations in that area of Monterey Bay have been declining dramatically and I would like to see them make a come back. Therefore, I request that the area of Monterey Bay from Breakwater to Lover's Point at the very least, (Package Two as it is known to the Department), be included in the Monterey Bay Marine Reserve.

Sincerely,  
Connie Dowler
